

Uncover Mirrored Loan Opportunities through Policy Review

As life changes, so can a client's protection needs. Meet with them to review their current life insurance coverage to ensure they still have the protection needed to stay on the financial wellness path.

EXPLORE THE MIRRORED LOAN STRATEGY

During policy reviews, you may discover policies that have outstanding loans, putting them in danger of lapse. In these cases, a mirrored loan strategy may be an attractive client solution. You may be able to offer clients: (1) a new policy with more favorable loan rates, (2) more available cash value to pay down the loan, and (3) benefits not available when they purchased their original policies.

MONITOR PROGRESS WITH LIFEINSIGHT

Once you've exchanged a client's policy, monitor and manage it for optimal performance. LifeInsight is an easy, interactive policy management tool that pulls essential information together in one place. It simplifies the monitoring of policy goals, assumptions, and performance.

Clients seeking information regarding their particular investment needs should contact a financial professional.

Where there is a reduction in benefits with an associated distribution on a non-MEC life insurance policy in the first 15 years, the recapture rules under Code Section 7702(f)(7) may be triggered. In those circumstances, the normal non-MEC tax rules do not apply and the cash distributed may be taxable to the extent of gain. Clients should consult an independent tax advisor prior to making changes to a policy.

Prudential Financial and its financial professionals do not give legal or tax advice. Clients should consult their own advisors.
