

LIMRA AML Training Log-In Instructions

Please have agents go to the www.LIMRA.com website to complete the AML course. Agents will have a standard user name and password with their initial login.

1. Instruct agents to go to www.LIMRA.com.
2. Have them click on AML training login (at the top right hand corner of the screen).

Username – First four characters of the agent’s last name and last six digits of the agents SSN.

Password (If this is the agent’s first time on the website)- Agent’s last name in lower case letters.

3. After the agent logs in, they will be prompted to change their password. They should be sure to keep their password for future reference, in the event another carrier requires LIMRA (They should also save their password so they can complete the refresher courses as needed).
4. The agents will complete the BASE, or Initial, AML course.
5. As previously mentioned, agents must complete the refresher course – Stages of Money Laundering – Anti-Money Laundering for Insurance Review every **24 months (or 12 months for Nationwide appointments)**.
6. The final step is for agents to click on any carriers at the bottom that are listed and go through their pages of information until the status next to the carrier’s name shows as “viewed.” (Agents should complete carrier pages for every carrier they wish to be appointed with)

If an agent needs additional website assistance, LIMRA can be reached at (866) 364-2380 or support@cfmpartners.com.
